

Dear Steve, *Berdetion*

10/19/94

I appreciate your call yesterday. Garrison's behavior was even worse than <sup>no</sup>oo had indicated to me. For him to have treated any of the detectives I knew and liked that way would have been terrible but it was ever so much <sup>more</sup> that he abused you that way because you were always there when he needed someone, without regard to the hours or personal life, and were so obviously dedicated to him.

I have written a short memo for the historical record and unless you should want to make a tape of what you shocked me by telling me yesterday, that will do.

Aside from all my own work, none of which is theoretical or other than factual, I have about a third of a million pages of once-withheld government records I got ~~me~~ by a dozen or more FOIA lawsuits. All will be a permanent free public archive at a fine small local college, Hood College

The memo I have written will be there in the event that in the future someone wants to check out such things as what Posner <sup>H</sup>wrote and lied about.

Or the lie that Jim put out.

I'm sorry I cannot travel. It is too dangerous for me and has been for 17 years.

My mind has not failed much but my body has in many ways. I'm rather weak now but I'm still percolating, writing.

Again thanks and best wishes,

*Harold*

Harold Weisberg

And I do remember and appreciate how thoughtful and Lynn were with me, always.
